

# CHINOOK

**YOUR ALLY AGAINST ICE AND SNOW**

Innovative solution for snow and ice removal  
from semi-trailers

## WHY YOU SHOULD CHOOSE THE CHINOOK?

### **Total adaptability**

Effective in all snow conditions  
(powder, wet, compacted, ice).

### **Unparalleled innovation**

The only system capable of de-icing  
semi-trailers safely and without manual labour

## FULLY AUTOMATED

No need for a ground operator and no risk for the equipment if driver advances to fast.

## DE-ICING EFFICIENCY

The lateral action brushes vibrate at 500 strokes per minute, ensuring quick ice removal

## SAFE FOR ANY TYPE OF ROOF

Unique technology eliminates the risk of damage to the trailer while ensuring complete snow removal, even on slightly deformed roofs.

## COMPACT AND EASY TO INSTALL

Requires only 50 ft<sup>2</sup> of ground surface area. Quick installation with 4 screw piles or a concrete base.

## MECHANICAL SIMPLICITY

Minimal moving parts, operation carried out in a single phase without conveyors or auger

## EASY GROUND CLEANING

Compared to other models on the market, the ground cleanup is straightforward and simple with any snow removal equipment.

## ADJUSTABLE HEIGHT

Automatically adapts to dry box trailers and flatbeds

Advanced options:

- Closed-circuit Wi-Fi camera: Allows you to watch the snow removal live, records video and takes photos of the final result.
- HF-UHF Antenna combined with a Tag sensor for an automatic positioning without the need for the driver to get out of the vehicle.

## LIMITED WARRANTY

- **2 years** parts & labor
- **5 years** parts
- **10 years** on the structure

# EDDYNET

Mechanical sweeping expertise at the service of modern North American trucking.
